## Education

### Bachelor's degree in Data Science

Yerevan state University

09/2019 - Present

### Picsart Academy

- *Computer Architecture*
- C Fundamentals
- Python Essentials
- OOP
- Linux

### Smart Code

- Python (OOP)

### High School

School After S.Xanzadyan /PhysMath

## Certificates

### Certificate - NVIDIA

Deep Learning

### Smart Code

Python(OOP)

## About me

Aspiring Junior Analytics Developer | Applied Mathematics and Statistics Student

I am a third-year student majoring in Applied Mathematics and Statistics at Yerevan State University, Faculty of Mathematics and Mechanics. Recently, I successfully completed an immersive program in computer architecture and Python with OOP at Picsart Academy.

Eager to transition into a role as a Junior Analytics Developer, I specialize in Python and its frameworks. My strength lies in skillfully comprehending and explaining intricate processes and procedures, driven by an unwavering commitment to exceptional attention to detail and quality. Having acquired hands-on experience in writing and executing Python code, I am actively pursuing job opportunities or internships to kickstart my career in the dynamic realm of Data Science and Machine Learning.
